

Shoreline Senator Call-In Day 2020

Mission: Mobilize Shoreline area residents to pressure elected leaders to pass bold legislation addressing the climate crisis in 2021

Action: On November 10, constituents will call their state senator and flood them with the message to **ACT ON THE CLIMATE CRISIS THIS LEGISLATIVE SESSION**

Details: Our time to address the climate crisis is running out. The scientific community has agreed that climate change is caused by human activity and will likely have devastating consequences, especially for marginalized communities.

According to [Yale research](#), the majority of CT residents believe the scientific CONSENSUS and want the government to take bold action on climate change.

Scientists have done their job, and now it is time for our elected officials to do their job. By calling them and flooding them with the demand to act THIS LEGISLATIVE SESSION (2021) on the climate emergency, we will hold them accountable and keep our needs firmly in the front of their mind. They must do everything they can.

We are including the names of the officials we are addressing, their phone numbers, the towns they represent, and a sample message. Call/Email/Tweet them on November 10th with the message to **ACT ON THE CLIMATE CRISIS THIS LEGISLATIVE SESSION**. Together we will send them a wave of public opinion that they will not forget

1. **Martin Looney**, President Pro Tempore of the Senate. 860-240-0375. info@martinlooneyforct.com. Hamden, New Haven, North Haven.

2. **Christine Cohen**, Environment Committee Chair. 860-240-0455. senatorcohenct@gmail.com. @SenatorCohenCT (twitter). Branford, Durham, Guilford, Killingworth, Madison, North Branford.

3. **Norm Needleman**, Energy Committee Chair. 860-240-0428. norm.needleman@gmail.com. @NormCT (twitter). Chester, Clinton, Colchester, Deep River, East Haddam, East Hampton, Essex, Haddam, Lyme, Old Saybrook, Portland, Westbrook.

Dear ___elected official___,

My name is _____ and I am a resident of __town__. I am calling to urge you to take the lead this legislative session in implementing bold policy that addresses the climate crisis. We are running out of time to deal with a GENERATIONAL THREAT. You must organize and enact policies that:

(choose one or two of the following)

1. Invest in renewable energy.
2. Center environmental justice as a way of mitigating harm done to marginalized communities by pollution, extreme weather patterns, food insecurity, and invest in these communities.

3. Invest in technology, such as improving energy storage systems and building carbon capture and storage systems.
 4. Work with businesses to create jobs, especially in marginalized and working class communities, driven by investments in renewing CT
 5. Invest in local agriculture as a way of increasing local economic activity and reducing the carbon releases of long supply chains.
- Our communities and families need you to lead this! Act now and with my support."
